PROCESSING TIP:

Faster applications with Access Seeker.

Access Seeker is a fast and free tool on our ApplyOnline portal provided by NextGen, where your brokers can quickly generate a comprehensive credit report before submitting an application for assessment. This feature enables you to review an applicant's credit history, as well as confirm credit limits and conduct on any existing loan facilities, without leaving a credit enquiry on the applicant's file.

Access Seeker is particularly useful for serving credit-impaired borrowers, as it prompts a conversation where the borrower can explain any defaults prior to submission, and your brokers can make notes in the loan submission to help credit assessment.

To learn more on how to use Access Seeker, check out this guick video.
